- ✓ On-site technical support
- ✓ Advanced user training

SMB 1-2-3 Implementation

Planning

The SMB consultant reviews implementation templates and guides you through the specific business process information needed to prepare for the Design and Set-Up phase for your company.

Step 1—Design & Set-Up

A focused design and set-up phase ensures that the application is configured to your business

Step 2—Training

Users are trained to use the application in your business environment.

Step 3—Walk Thru

Detailed walk-thru tests the accessibility and functionality of your SMB solution.

Go-Live Support

The SMB consultant monitors users' activities in a live, production environment to ensure a smooth transition to SMB.

It's as easy as
